

## EVERYONE SHOULD HAVE A RANDY (Hali Hammer)

He's my very best friend, he's my sharer of dreams  
He's my musical companion, he's my laughter machine  
He can play a cool lead and he can nurture a seed – oh everyone should have a Randy

He will cook you a dinner 'cause he likes to do it  
And vegetable omelet, well there's nothing to it  
We can read through the night or kiss and turn out the light  
- Yeah, everyone should have a Randy

He has a great smile and a disarming style  
His helpfulness is quite a relief  
He washes the dishes & wipes out the sink  
He picks the drain tray up & then he cleans underneath!

We can hang out for hours just talking our talk  
Or hold hands & travel down the trails at Tilden Park  
He's my pride & my joy, yeah he's my sweet hippie guy  
Oh, everyone should have a Randy! (Instrumental Break)

He knows the neighborhood cats, feeds & talks to the birds  
He'll compose a lovely tune and he is clever with words  
He draws hearts in the yard – life wouldn't be so hard  
If everybody had a Randy

He always says nice things about me & he treats me first-rate  
Go to a movie, get a milk shake – it's the perfect date  
He snags me as I rush by, we watch the sun set in the sky  
Oh, everyone should have a Randy

George was our favorite Beatle and if that ain't all  
We both get so excited when the A's play ball  
We share political views and keep up with the news  
But we balance it out with fun

He's my very best friend, he's my sharer of dreams  
He's my musical companion, he's my laughter machine  
He can play a cool lead and he can nurture a seed – oh everyone should have a Randy

He's got a degree from MIT and a PhD in love!  
Oh, everyone should have – everyone should have a Randy!
