

I'm Not Gone - for Jon Fromer (Hali Hammer)

When you're worn out from the marches,
from the pace you've kept so long
All the steps that you have taken - still the road goes on & on
Sing and play to lift the spirit - Pour your soul into the song
I will be there singing with you -
I'm not gone, no I'm not gone

When the workers get so weary standing on the picket line
When they need a song to cheer them and to help them pass the time
Sing as one to honor labor, sing for strength to carry on
I will be there singing with you -
I'm not gone, no I'm not gone

- When you play a song with passion
- When you sing one from the heart
- When you spur folks into action
- When you do more than your part
- When you work for peace and justice
- When you dare to take a stand
- When you join hands for a union

I'll be there upon the wind

When you can't escape the feeling that you have to do what's right
That the world, it needs our healing
That the world, it needs our light
When you have to go the distance
When you have to right those wrongs
I will be there singing with you -
I'm not gone, no I'm not gone
I'm not gone, no I'm not gone - I'm not gone, no I'm not gone
